

New York Stock Market

New York, November 25.—A 12 per cent rate for call money, the highest since January 3, 1910, caused some settlement in stocks today. The advance was ascribed to a variety of causes, including the world-wide tightening of monetary conditions, the Russian war and the strain upon domestic reserves.

Some local banks called loans; but this move was not general. The high rate yielded slightly when one of the most important institutions offered several million at 6 per cent in keeping with its fixed policy, but when this supply was exhausted, quotations again mounted to the high figure before the close the rate again declined.

The failure of American bankers to bid for any part of the South African gold received in London is thought to be the result of an understanding between local financiers and their European confreres.

London selling in this market was another factor contributing to the depression of stocks. It was estimated that London sold 25,000 to 30,000 shares here, and that 7,000 shares were sold on direct cable from the Continent.

The award of the aviation board to the Eastern railway engineers was reflected in the stock market railroad shares, being depressed in the early part of the day to a more marked extent than the industrial. Lack of interest in the rally in money rates induced a slump in liquidation, the whole list sold off and prices fell from one to three points below Saturday's close. Bonds showed heaviness in connection with stocks. Total sales, par value, \$1,350,000. United States bonds were unchanged on call.

New York, November 25.—Money on call strong, 6 1/2 per cent. Time loans, closing bid, 8 1/2 per cent. Time loans steady; six days, 6 per cent; ninety days, 6 1/2 per cent; six months, 6 1/2 per cent. Sterling exchange easy, with actual business in bankers' bills, \$4.50 for sixty-day bills and at \$4.50 for demand. Commercial bills, 48 1/2 per cent. Silver and railroad bonds heavy.

COTTON MARKETS.
New York, November 25.—After making new high records for the season during today's early trading, the cotton market turned earlier under heavy realizing or selling for a reaction and closed barely steady at a net decline of 1/4 point. The opening was steady at a decline of 1/4 point to an advance of 1/4 point, the near month being lower. In sympathy with disappointing sales, while the market reacted, a report of Saturday's active buying movement, which had the character of bullish sentiment, was quickly taken up in sympathy with the strength which developed during the progress of the call, and within the first hour the market advanced 1/4 point to a net higher. This advance carried January contracts up to 12 1/2 per cent, or 1/4 per cent above the market value of the bonds. The market value of the bonds is 1/4 per cent below the market value of the bonds.

CHICAGO GRAIN MARKETS.
Chicago, November 25.—Excited upturns in wheat on account of unfavourable war rumors today brought about heavy sales, probably for clearing, and the market closed nervous at an advance of 1/4 per cent to 1/2 per cent. In corn the outcome varied from a slight decline to a rise of 1/4 per cent. In oats the market was steady at a net decline of 1/4 point. The opening was steady at a decline of 1/4 point to an advance of 1/4 point, the near month being lower. In sympathy with disappointing sales, while the market reacted, a report of Saturday's active buying movement, which had the character of bullish sentiment, was quickly taken up in sympathy with the strength which developed during the progress of the call, and within the first hour the market advanced 1/4 point to a net higher. This advance carried January contracts up to 12 1/2 per cent, or 1/4 per cent above the market value of the bonds. The market value of the bonds is 1/4 per cent below the market value of the bonds.
